

# tesa® 4317

Fine Crepe Paper Masking Tape for Spray Painting

## Product Description

tesa® 4317 is a thin and flexible masking tape comprised of a fine crepe paper backing and a natural rubber adhesive. The natural rubber adhesive provides an excellent adhesion to multiple surfaces, like metal, rubber, glass and plastic.

## Product Features

- tesa® 4317 is resistant to wet sanding.
- The masking tape is suitable for a wide range of general masking applications without or with subsequent oven-drying up to a temperature of 80°C.
- The fine crepe paper backing is flexible and conformable and is easy to tear by hand.
- Paints and fillers adhere well to the reverse side, preventing any kind of flaking

## Application Fields

- tesa® 4317 is a flexible masking tape used for spray-painting, painting, and varnishing applications
- The masking tape has excellent holding power on various surfaces
- The tape is suitable for oven-drying with temperatures of up to 80°C
- Ideal for lacquering work
- Good flexibility for curves
- Can be used on painted metal, rubber, glass and chrome parts
- The tape is easy to remove and is hand-tearable

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

## Product Construction

Backing material **slightly-creped paper**

Type of adhesive **natural rubber**

Total thickness **140 µm**

## Właściwości

Easy to remove **yes**

Temperature resistance **80 °C**

Elongation at break **10 %**

Tensile strength **38 N/cm**

Hand tearability **very good**

## Adhesion to Values

Steel: **3.3 N/cm**
