

# tesa® 63303

30µm double sided transparent tape

## Product Features

- Thickness: 30µm
- High bonding strength
- Very high push out and shock resistance
- High performance on LSE substrates
- Excellent permanent reworkability on various substrates
- After separation the adhesive is reworkable by stretching or peeling
- Easy reworkability even after a long bonding time

tesa® 63303 is a double-sided mounting tape with a special reworkable adhesive

## Application Fields

- Demanding mounting
- Permanent mounting of components in electronic devices with the option to remove the parts for repairing or recycling
- Temporary mounting prior to mechanical fixation

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

Type of adhesive **specialty**

Type of liner **glassine**

Total thickness **30 µm**

Backing material **none**

Color **transparent**

### Properties / Performance Values

Temperature resistance long term **60 °C**

Temperature resistance short term **90 °C**

### Adhesion to Values

Steel (initial) **6.0 N/cm**

Steel (after 14 days) **7.0 N/cm**
