

tesa® 4615

General purpose duct tape

Product Description

tesa® 4615 is a utility duct grade for general purpose applications. It consists of a 27 mesh woven fabric laminated on a colored PE film. The product is coated with a synthetic rubber adhesive with solvent-free technology.

Product Features:

- Bonds instantly with high adhesion on a variety of materials
- Unwinds gently and is easy to tear by hand
- Water repellent and durable

Application Fields:

- Holding protective layers e.g. plastic films and paper sheets
- Fastening and bundling of wires, cables and loose objects
- Sealing, marking and masking even on slightly rough surfaces

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

Backing material **PE laminated cloth**
Type of adhesive **synthetic rubber**

Total thickness **175 µm**

Properties/Performance Values

Elongation at break **14 %**
Tensile strength **40 N/cm**

Humidity resistance **good**
Hand tearability **very good**

Adhesion to Values

Steel **7 N/cm**
