

33300

Specialized adhesive tape with high adhesion,
designed for airtight sealing resistant to air flow.

TECHNICAL DATA

Main application	Tight bonding of vapor barrier films
Carrier/Reinforcement	LDPE film, reinforced with polyester mesh
Color	Green
Liner	Silicone paper, brown
Adhesive	Acrylic - dispersion
Total thickness without liner	0.26 mm – 0.28 mm
Adhesive strength	>40N / 25 mm
Adhesion	>30N / 25 mm
Application temperature	+5°C
Temperature resistance	-30°C - +100°C
Aging resistance	Very good
Adhesion:	Very good
Moisture/condensate resistance	Very good
UV resistance	Up to 3 months
Storage	Up to 12 months in dry and dust-free rooms at room temperature

**THE TECHNICAL DATA WERE
ASCERTAINED BY DIN. COMMITMENTS
CANNOT BE DERIVED FROM IT.**

The quoted adhesive strength refers to laboratory tests according to specific test standards. It does not imply in any case a guarantee of any parameter with respect to other materials and adhesive conditions than those specified in the test standard.
